**WARE MALCOMB CEO LAWRENCE R. ARMSTRONG LAUNCHES
NEW WEBSITE TO SHOWCASE AWARD-WINNING ART**

Armstrong's Art Selected to Exhibit at John Wayne Airport Following Recent Showings in New York, Miami, Rome

IRVINE, Calif. (December 28, 2015) – Ware Malcomb, an award-winning international design firm, today announced the firm's Chief Executive Officer, Lawrence R. Armstrong, who is also an accomplished artist, has launched a newly redesigned website at www.LRAart.com. The website features Armstrong's personal work as an artist, international showings and awards.

The firm also announced that Armstrong's art has been selected by the John Wayne Airport Arts Commission for exhibition in the Thomas F. Riley Terminal of the international airport located in Orange County, Calif. in 2016.

Armstrong's work has appeared in a number of high profile art exhibitions. His 2015 showings include: the Fusion XII-Infused exhibition in Miami from October 1 - December 14, 2015; year-long showings at ArtFusion Gallery in Miami and ArtBlend Gallery in Fort Lauderdale, Fla.; Artblend Spectrum in Miami from December 2-6, 2015; L'isola che C'e Art and Music Festival in Palermo, Italy from October 15-18, 2015; Little Treasures in Bologna, Italy from October 24 – November 5, 2015; RISE – Creating from the Heart in Ferrara, Italy from August 22-20, 2015; Piazza del Popolo in Rome, Italy from May 19-29, 2015; and ArtExpo in New York City from April 23-26, 2015. In 2014, Armstrong's work also appeared at international exhibitions in Madrid and Toronto.

Armstrong's paintings and sculptures represent an ongoing exploration of the concept of layers: both how they interact and intersect with one another, and also the meanings contained within. Whether two- or three-dimensional in scope, the artwork that results is almost multisensory in nature, eliciting from the viewer a multifaceted experience of the wondrous complexity that ultimately composes our world. Through his art, Armstrong explores the natural tension inherent in opposing forces, whether it's the natural world versus built environments, or other paradigms such as chaos/order, free form/precision, random/planned action, and solid/void.
